

# TIME-KEEPER PRESENTATION

By Colevy Collins

## What Will You Find Inside

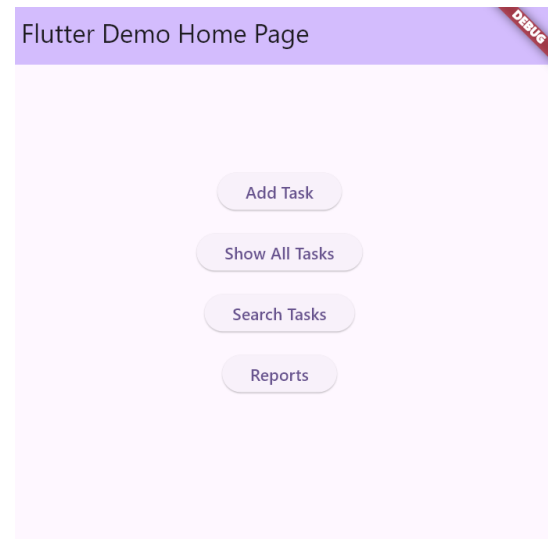

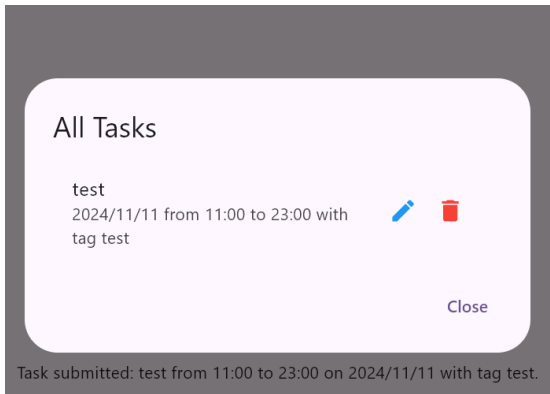

Features that allow you to add, view, edit, and delete to a database of tasks

A feature to search the database for specific tasks

A feature to generate reports based on the tasks in the database

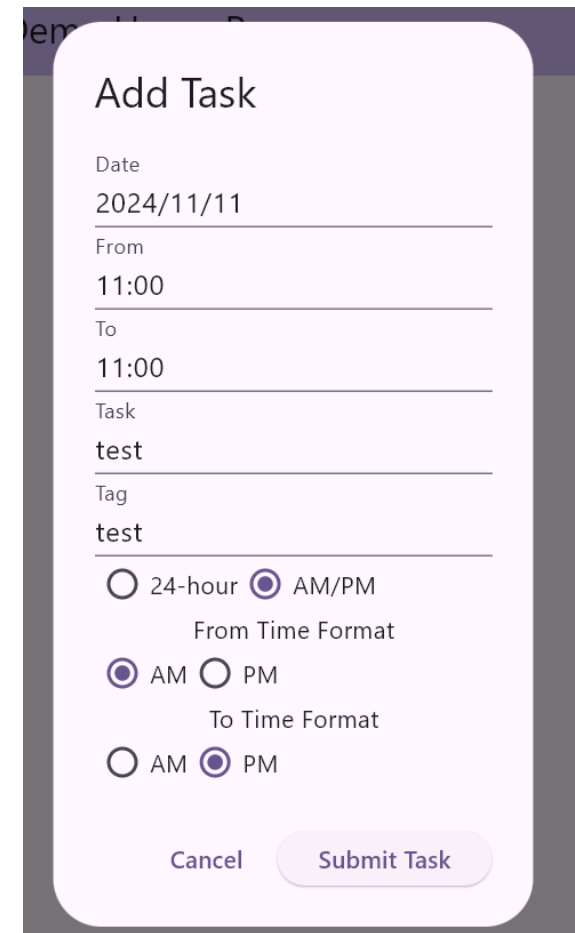

# Feature 1: Add, View, Edit, and Delete

You can add tasks with data formatting and validation is check.

You can view then edit or delete task

## Feature 2: Search the database

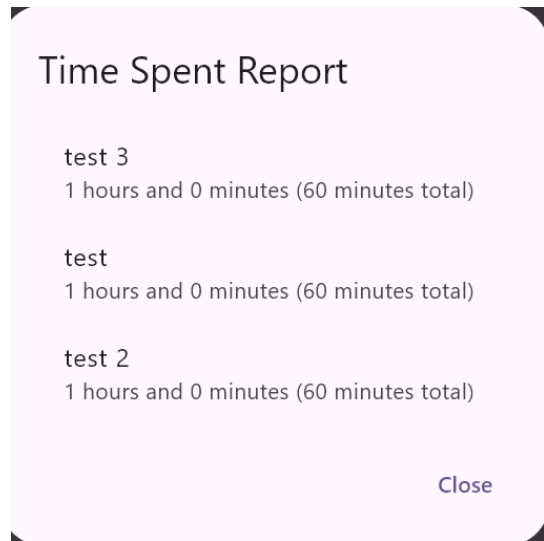

You can search the database based on criteria.

You can add a list of tags to search for by listing all tags separated by commas.

A screenshot of a 'Search Tasks' dialog box. It has a light purple background and rounded corners. The title 'Search Tasks' is at the top. Below it are three input fields: 'Date' with the value '2024/11/27', 'Task' (empty), and 'Tag' with the value 'test, test 2, test 3'. At the bottom are two buttons: 'Cancel' and 'Search'.

A screenshot of an 'All Tasks' list. It has a light purple background and rounded corners. The title 'All Tasks' is at the top. Below it are three task entries, each with a blue pencil icon and a red trash can icon to its right. The tasks are: 'test 3' with details '2024/11/27 from 11:00 to 12:00 with tag test 3', 'test' with details '2024/11/27 from 11:00 to 12:00 with tag test', and 'test 2' with details '2024/11/27 from 11:00 to 12:00 with tag test 2'. At the bottom right is a 'Close' button.

# Feature 3: Report Generation

—◆—

Date range report allows you to see all tasks done between 2 selected dates.

Time Spent Report allows you to see all the time spent on tasks with the same tags.
